and Traceability to the  
United States National Institute of Standards & Technology

Pine Instrument Company  
5,000 lbf Capacity Proving Ring

Model No.: AFGCLR05C Serial No.: 1320

The above identified instrument was calibrated as a limited load instrument according to ASTM specification E74-06, "Standard Practice of Calibration of Force-Measuring Instruments for Verifying the Force Indication of Testing Machines."

Following are the units and loads of force applied to the instrument during three separate calibration runs, the deflection in divisions as read on the indicator for each applied load, and the average deflection in divisions for each load.
